YSAAC ANDUJAR

• Software Engineer •

ABOUT ME

I am a FullStack software engineer with over 4 years of professional experience, including developing projects for large companies. I have strong skills in multiple programming languages as well as in managing relational and non-relational databases.

EXPERIENCE

Codika - Software Engineer

- I developed large-scale projects for prominent clients such as Centro Cuesta Nacional, Banco Popular Dominicano, Bondelic, SkyHigh, Metaldom, Analisa, and Seprisa.
- I used technologies like React, NestJS, .NET Core, Angular, and Django to create efficient, scalable, and tailored web solutions.

Kalifika - Software Engineer

- I developed the BackOffice for a credit bureau serving major Dominican banks, using Angular for the frontend and Django for the backend.

Tennos Business - Ingeniero de Software

- I worked as a FullStack developer on projects using Vue.js and .NET Core, as well as ASPX, developing and maintaining modules.

SRC - FullStack Developer

- I developed a BackOffice for a mobile app focused on phone top-ups and lottery ticket purchases.
- I created the APIs required to connect the BackOffice with the mobile application.

EDUCATION

Software Engineer
Universidad del Caribe

Software Development
Instituto Tecnológico de Las Américas

High School
Instituto Politécnico Pilar Constanzo

SKILLS

Languages:
Typescript, C#, Python.

Frameworks:
React, NodeJs, .Net, Django, Angular, Vue

DataBases
SqlServer, MySql, MongoDb, PostgreSQL

LANGUAGES

Spanish - Native
English - Advanced
